

I currently listen to air1 using several FM stations (depending on which area I am in). I believe this is a radio station that serves as a positive alternative for everyone. After listening to several other radio stations I believe this station is one of the few you can listen to that does not give out messages of anger, hate, greed, etc. If this station were to be displaced due to LPFM broadcasting it would leave a void no other radio station is currently filling. I believe it is in the public interest to keep stations such as air1 on the air because it is a positive alternative and lets people of any age to enjoy music without having to worry about offensive language or content. It is a refreshing station that serves a great purpose for my local community. Please take this comment into consideration when considering your changes to the current broadcast service.

Thank you.
